Battery

The SMART TAG FINDER contains a CR2032 coin cell battery, during the product's lifespan, it may be necessary to replace the battery. And you should pay attention to the positive and negative electrodes of the battery.

Battery Replacement

2.1 Insert the shell - opening tool into the gap on the side of the device, rotate to pry open the shell, and then slide the tool along the edge of the opening to separate the upper and lower shells.

- 2.2 Replace the battery with a new one, with the positive pole facing up;
- 2.3 Align the hanging rope hole positions of the upper and lower shells, squeeze inward, and fasten the shells.

Additional Tips

3.1. When the device is paired with the Find My app, the phone needs to be linked to the Apple server. Pairing failures may occur due to network issues.

We recommend the following:

- a. Change the cellular network, such as switching between WIFI and mobile networks;
 - b. Factory reset the device;
 - c. Re-pairing.
- 3.2. To remove SMART TAG FINDER from your Apple device, open the Find My app, select "Items", find the device, then scroll down and tap "Remove this device".
 - 3.3. Battery life, related to personal usage habits, frequent use of the call function will accelerates battery drain.

Important Matters

The FINDER contains delicate electronic , including a battery to avoid damage, loss of function, or potential harm. Please refrain from dropping, hitting, puncturing, crushing, disassembling, exposing it to extreme heat or liquids, or placing it in areas with a high concentration of industrial chemicals.

WARNING: Do not swallow the battery; There is a chemical burn hazard.

Choking Hazard Warning

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
