	APE:-258Kbps-1411Kbps	
	FLAC: 265Kbps-1411Kbps	
SNR	≥85dB	
USB port	Type-C USB 2.0	
Compatible Systems	Windows 7 and the above	
Operating temperature	0-45°C(32-113°F)	
Charging	5V DC, 1A	

## Warning

Do not leave the device in an environment where the temperature is too low or too high (below -10℃ or above 50℃) for a long time. Extreme temperature environments will cause the device to deform and shorten the service life of the device;

Do not use the equipment under thunder storm weather;

Do not place the device in the water for a long time;

Do not expose the equipment to the sun for a long time.

#### FCC Warning Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement.
