

Antenna Information

1. PRODUCT TECHNICAL SPECIFICATION

Frequency Range:	433.92MHz
V.S.W.R:	≤ 1.5
Input Impedence (Ω):	50 Ω
Gain (dBi):	0db
Antenna Type:	Spring Antenna
Wire diameter:	1.03mm
Outer diameter of the spring:	6.2mm
Total length including the welded part:	240mm
Interface format:	Welding
Number of rounds:	Spring type, 14 turns, insulating material - black PVC material
Temperature:	Maximum temperature of the vinyl plastic coating 120°C
Manufacturer:	Ningbo Maijiao Electronic Technology Co., Ltd.

2. Dimension
