

2.4G Wireless Mouse

2.4GHz

Micro receiver

10M effective distance

Button design

400mAh battery

user's manual

Product size:60*38*108MM Receiver size:18*13.5MM
Product weight:0.06KGS Key operation force:50-70G
Product material: ABS injection molding
Product color: black, white
Distance:10M movement speed:1000DPI
Functional power consumption:16mA
compatibility: Windows7/8/10 ISO10.0

1. Turn on the mouse and press the PB button.
2. The red indicator light on the 2.4GHz band lights up.
3. Plug in the USB connector, the mouse will work and the indicator light will turn red.
4. The mouse operates in 2.4GHz mode.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
