Play time: 9-12 hours

Vocal unit: 2+2+1

Rated power peak: 150W

Distortion rate: below 0.5%

Charging voltage: TYPE-C DC 5V/2A

Package includes: 1 speaker, 1 USB power cord, and 1 instruction manual

### NO2: Introduction to Audio Functions

After lightly tapping the "power" button, you will hear a "dong" prompt sound and a flashing rainbow light. After turning on, Bluetooth automatically searches and the colorful indicator light flashes. Now pair the device with your phone and the name should be displayed as 'L-98'. After successfully pairing with the speaker, a "ding dong" prompt sound will be emitted. This device has a memory function. After establishing a Bluetooth connection, the Bluetooth will automatically connect when the speaker is powered on. If the Bluetooth connection fails, please shut down and restart, or it may be due to low battery power. Please recharge.

Button Description:

"power" key: Long press for about 3 seconds to turn on/off. Short press to pause/play while music is playing. When in AUX mode, short press to mute. Double click in Bluetooth mode to open the voice assistant function.

"-" key: When playing music, short press to reduce volume, long press to switch to the previous song.

"+" key: When music is playing, short press to increase volume, long press to switch to the next song.

"M" key: Short press to switch modes (when there is a USB flash drive, TF card, or AUX audio input). Long press the couplet function, and once the couplet is successful, long press again to cancel it. Double click to disconnect the current connection while in Bluetooth mode, and double-click again to quickly restore the connection. Long press the TWS function.

"light" key: Short press to switch light effects, long press to adjust light brightness (this product has three brightness adjustments: high, medium, and low), double-click to turn off the light, and single (double) click again to turn on the light again.

This product will automatically shut down after 10 minutes without playing music or inserting an audio cable. If needed, please restart the device.

Reminder: This product has a forced reset function: When the audio system crashes abnormally or other conditions cannot be adjusted, please insert a non-conductive object from the AUX (headphone) interface and lightly touch the reset switch inside to forcibly turn off the audio system. If you need to use it again, just turn it on normally.

### NO3: matters needing attention

1. To extend the service life of the machine and protect your physical and mental health, please do not listen to music loudly for a long time to avoid damaging your hearing.
2. If you find that the machine is malfunctioning, please immediately turn off the power switch, unplug the power plug USB plug to prevent damage to the speaker and components.
3. Power shortage affects wireless distance or wireless disconnection, please charge in a timely manner.

### NO4: Warning

1. Please store and use this product at room temperature.
2. Do not expose this product to rain and humid environments.
3. Do not throw it away to avoid damaging the product.
4. Products with built-in lithium batteries should not be discarded or set on fire at will to avoid danger.
5. Please do not convert the product itself.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
