

Instruction Manual
Please read this instruction manual carefully before using the product.

User Instructions:

1. Disassembly and Modification Prohibition: This device is constructed with high-precision components. It is strictly forbidden for users to disassemble, repair, modify, or subject it to heavy impacts, as this may cause damage. In case of device malfunction, please promptly contact the after-sales service center for professional repair.
2. Appropriate Usage and Storage Environments: Avoid using or storing the device in environments with high temperature, high pressure, strong magnetic fields, excessive dust, or high humidity. Additionally, refrain from exposing it to direct sunlight or immersing it in water. Do not throw or subject the device to violent vibrations to prevent damage to its internal components.
3. Proper Disposal of Packaging Materials: All packaging materials, including tape, locks, plastic sheets, binding wires, and labels, are not part of the product and are not suitable for children's play. For the safety of your children, please ensure the proper disposal of these packaging materials.
4. Device Maintenance and Care Guidelines:
 - (1). Refrain from scratching the device surface with sharp objects. To safeguard the device, it is advisable to place it back in the original packaging after use.
 - (2). If dust accumulates on the device surface or water splashes onto it, gently wipe with a soft, dry cloth to maintain cleanliness. Do not use

volatile organic solvents such as gasoline or thinner to clean the device surface.

(3). When the device is not in use for an extended period, please disconnect the power supply.

(4). Before and after using the device, carefully inspect each interface for foreign objects or damage. If foreign objects are detected, remove them promptly. In case of damage, consult the manufacturer for repair instructions.

Charger Usage Instructions:

1. The charger is designed only for powering the device.
2. It is strictly prohibited for children under 3 years old to use the charger.
3. Do not allow children to insert or unplug the power plug independently.
4. The device must be used with a recommended charger that complies with national standards.
5. When cleaning the device with cleaning fluid, ensure that it is disconnected from the charger.
6. Please use a safety-isolated charger for charging.

7. Regularly check the wires, plugs, casing, and other components of the device for any signs of damage. If damage is detected, stop using the device until it has been repaired.

Tips: Based on the R & D concept of this product, our company places a high emphasis on user safety. Therefore, we would like to draw your attention to the following points:

1. This product will not function while it is being charged.

2. If the device fails to respond when powered on, please turn it off and charge it for at least 20 minutes before attempting to use it again.

3. When the product is charging, the red indicator light on the back will be illuminated. Once the charging is complete, the red light will turn off.

4. If the product has not been used for a long time, it is recommended to charge it once a month to ensure its normal operation and extend its service life.

5. Charging Method: Please use a charger with an output of 5V - 1000mA. Connect the USB cable to the USB port of the device. The charging time typically ranges from 5 to 8 hours.

Product Functions:

1. Screen Mirroring Function: Enables more convenient and clear selfies using the rear camera of your mobile phone.
2. Strong magnetic attraction: More stable while taking selfies, without causing damage to your phone.
3. System Compatibility: Compatible with mobile phones running iOS system 9.0 and above, Android system 2.0 and above, HarmonyOS system 3.0 and above, MagicOS system 4.0 and above, etc.
4. Bluetooth function: No additional controller is required, just press the shutter button to take a photo.

Functional specification:

1. Screen Mirroring Function: Enables more convenient and clear selfies using the rear camera of your mobile phone.

2. Strong magnetic attraction: More stable while taking selfies, without causing damage to your phone.

3. System Compatibility: Compatible with mobile phones running iOS system 9.0 and above, Android system 2.0 and above, HarmonyOS system 3.0 and above, MagicOS system 4.0 and above, etc.

4. Bluetooth function: No additional controller is required, just press the shutter button to take a photo.

Power Switch Operation: Toggle the switch to turn the device on or off.

Screen Rotation Function: The screen can be rotated 180 degrees for optimal viewing.

Display Ratio Adjustment: Allows you to switch between full-screen mode and 1:1 mode.

Brightness Adjustment Feature: Easily adjust the brightness of the screen to suit your preferences.

Connection Method Steps:

1. Turn on the power switch, turn on the phone's Bluetooth first, and search for the Bluetooth name: Connect to HCBT and then go to the mirror after success.
2. Swipe down from the top right corner of the phone screen to open the shortcut menu bar. Locate the screen mirroring function on your mobile phone (for Apple phones, it is labeled as "Screen Mirroring", and for Android phones, it is usually named "Wireless Screen Mirroring"). Click to activate it

Alternatively, you can access it through Settings > More Connections > Screen Mirroring function.

3. In the search list, find "Hccast-p2p" and click to establish a connection with the device. (For the first connection, you will need to enter the verification code "1234".)

Packaging Accessories:

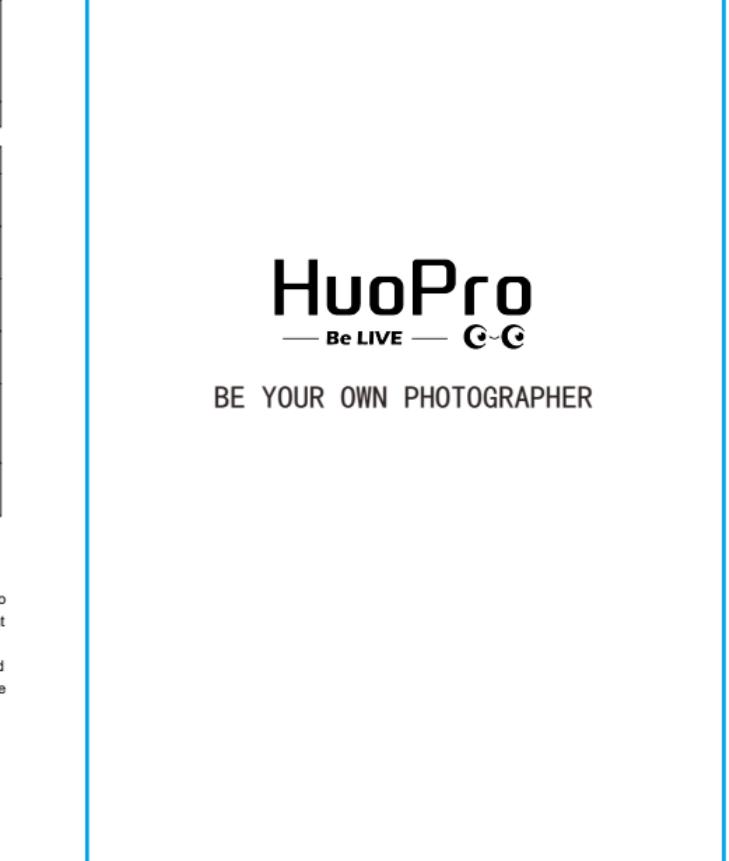

Orb	Device	TYPE-C cable	Instruction/warranty card	Certificate
1	1	1	1	1

User Name	Gender	Age
MAILING Address		
Contact Number		Postal Code
Purchase Location		
Contact Number	Sales Order Number	
Product Name	Device Serial Number	
Dealer Signature	User Signature	

Note:

Warning: All packaging materials (such as tape, plastic bags, plastic sheets, binding wires, and labels) and small interior accessories of the device should be kept out of reach of children under 3 years old to prevent the risk of suffocation. Use the device under adult supervision at all times.

When the surrounding temperature is 50°C, the device should be removed indoors and allowed to cool down to room temperature for 2 hours before use.

FCC Caution:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
