

01 02

■ 安装DC电源 Install DC power supply

■ 安装机器自锁快接头

Install the machine self-locking block connector

接头顺时针扭入机器抽插杆，蝶形手拧螺丝逆时针加固接头。

Twist the connector clockwise into the pull-in rod of the machine, and tighten the connector by turning the butterfly screw counterclockwise.

DC公插头插入机器对应的母插头。

Insert the DC male plug into the corresponding female plug of the machine.

03

器具的安装

Installation of appliances

自锁快接头头部往后拉，将器具插头插入圆孔顶往后松开。

Pull back the head of the self-locking block connector, insert the plug of the appliance into the top of the round hole and loosen it.

04

延长杆的安装(可根据需要安装)

Installation of the extension rod (can be installed as required)

延长杆的内螺纹一端和机器杆子连接并用手拧螺丝锁住；外螺纹一端和接头连接并用手拧螺丝锁住。

Connect the internal thread end of the extension rod to the machine rod and lock them with a screw; Connect one end of the male thread to the connector and lock them with a screw.

05

角度调节

Angle adjustment

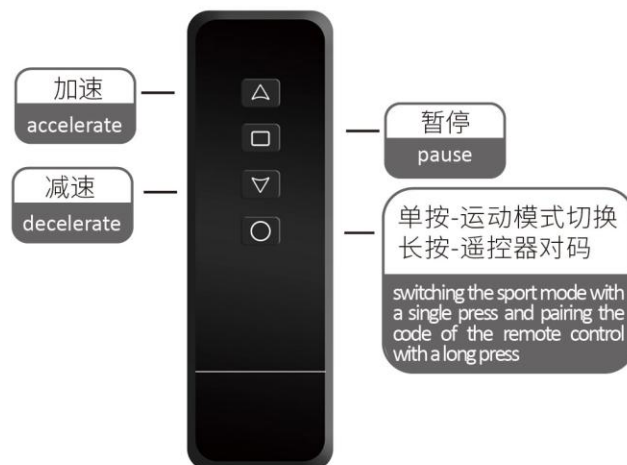

底座上的手拧螺丝
松开后调节角度, 合
适的角度锁紧即可。

Loosen the screw on the base to
adjust it to a proper angle, and then
lock it.

INSTALLATION INSTRUCTION

Warning:

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Statement: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
