iOS

Google Play

2. App Registration Account

Enter your username and password to register for an APP account, and click login.

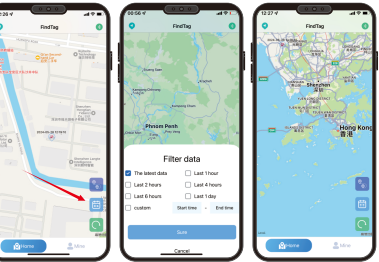

3. Scanning devices

Tap the search icon in the main interface of the app, it will scan all the Bluetooth devices attached to the phone, tap the scanned device, you can connect to the phone.

4. Getting Started

After connecting to the device, you can view the address where the device is located, click on the lower right corner of the data filter, you can select the latest data, 1 hour, 2 hours, 4 hours, 6 hours, 1 day of data for filtering, you can view the corresponding time of the device's location data.

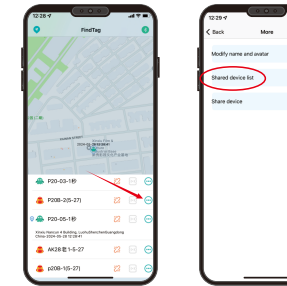

5. Share Locate Device and Remove

Open the list of connected devices, select the device you want to share (limit 2), enter the device settings interface, click the share device button, enter the account of the person being shared, and the login password of the person sharing (the main account) to confirm, and the other party's app will show the data of your device to share the positioning.

6. Deleting Shared Device Information

Click on the list of shared devices and click Delete Shared Devices to delete the location data of your device on the other party's phone, and the other party can't view the location information of your device.

7. Positioning principle

Nearby Beep: When the Loss Prevention is near the phone, the small speaker icon of the item list will light up. At this time, you can click the speaker button to make the Tag make a sound.

Map Find: When the anti-loss device is far away from your phone you can try the map find function, if someone else finds your anti-loss device, you can get the location reported by the other person's cell phone and decrypt where the most recent location of the anti-loss device is, (the location update is not real-time).

Declare: The product team will continue to improve the product experience, but we can't promise a fast and reliable network query service, we also reserve the right to change the hardware and software features in the future.
