## Page-turning Counting Hand Grip Strengthener

### Product Description

Model: VigorTrack-01

Weight: 78g

Material: Silicone + ABS

Size: 83\*70\*23mm

### Power - on

Power - on: Grasp the product and press to power on. The numbers will be displayed, and the left indicator light will flash. Wait for "Bluetooth" connection.

The product will automatically turn off and reset to zero after being left unused for 300 seconds.

### Bluetooth Connection

Open the clamp, and the small dot on the left side of the display screen will flash.

Open the handle, the small dot on the left side of the display screen will flash. Open the Bluetooth settings on your mobile phone, find "VigOrTrack - 01" and pair it. The mobile phone will show success. Two seconds after pairing, the two small dots will stop flashing and go out.

### Apple iOS Settings

Siri activation: You can say, "Turn on AssistiveTouch."

Manual activation: Enter "Settings - Accessibility" - "Touch - AssistiveTouch" and turn on the AssistiveTouch function of the mobile phone.

Adjust the sliding precision by adjusting the tracking sensitivity. It is recommended to set the sensitivity to less than one - third of the position.

### Usage Method

When Bluetooth is not connected: Press once and count 1.

When Bluetooth is connected: Press once to count 1, and at the same time, the mobile phone simulates one downward swipe and one left swipe; Press quickly twice to count twice (pressing more than twice will not count), and at the same time, the mobile phone simulates one upward swipe and one right swipe; Long press will not count, and at the same time, the mobile phone simulates a long press (a long press of 1 second is equivalent to once, and a long press of 5 seconds turns on the ambient light, and a long press of 10 seconds turns off the ambient light).

### Easily change the pressing method

### Charging

Take the charger out of the silicone case and connect a TYPE-C charging cable for charging. The 3 middle indicator lights will light up one by one. When "888" is displayed, it means it is fully charged. (The rated input of the charger is 5V/0.5A)

### Daily Maintenance and Precautions

Avoid throwing the fixture to the ground with force.

Do not disassemble, modify or repair without permission; otherwise, it will not be returned.

Do not let water or other liquids enter the interior of this product to avoid product damage.

Contains small parts. If bitten or swallowed, there is a risk of suffocation. Children under 3 years old should avoid contact.

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

\* RF warning for Portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
