

## Product Overview

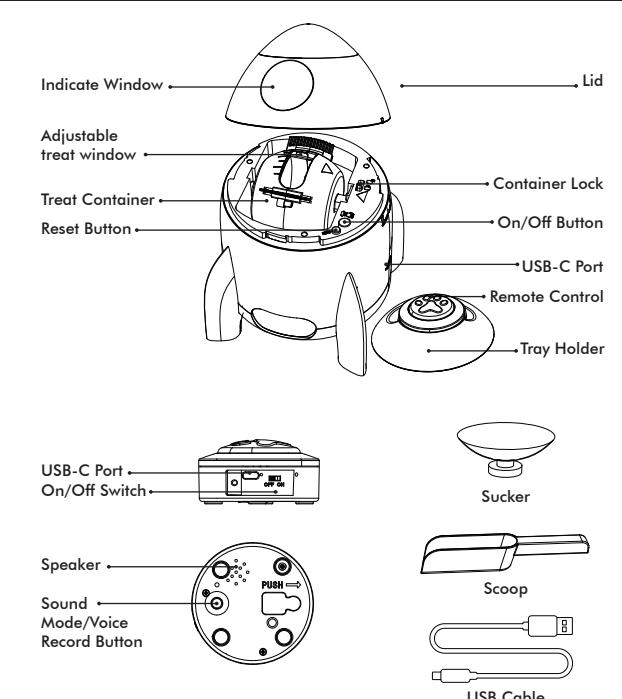

# IQ ROCKET

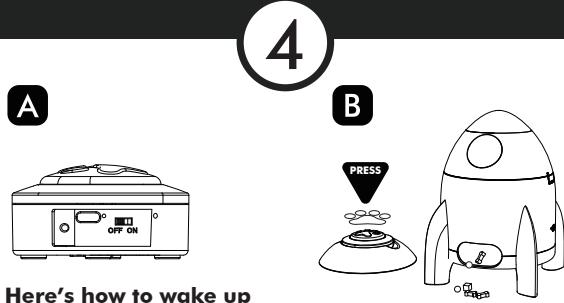

## SMART TREAT Dispenser

- Dog IQ Training
- Voice Recording
- Remote Control
- USB Rechargeable

## USER MANUAL

## Using the Remote Control

Here's how to wake up your dog's new best friend

A. Flip the remote switch to the right – the green light means it's on.

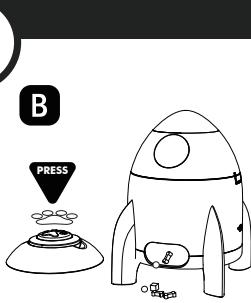

Let your voice call the shots.

Want to record your own?

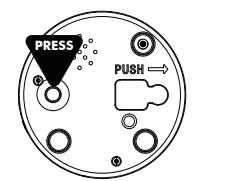

o Long-press the record button until you hear a "di."

o Speak your message (within 30 seconds) – "didi" means done!

**Tip: Record in a quiet room for best clarity.**

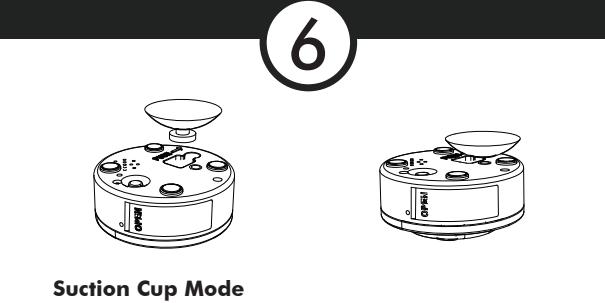

B. Press the treat button – you'll hear a "ding" and the dispenser releases treats.

Tap the record button to switch between 4 preset sounds + 1 custom voice.

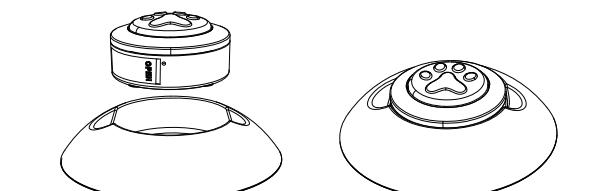

**Tip: Record in a quiet room for best clarity.**

## How to Secured the Remote

## Suction Cup Mode

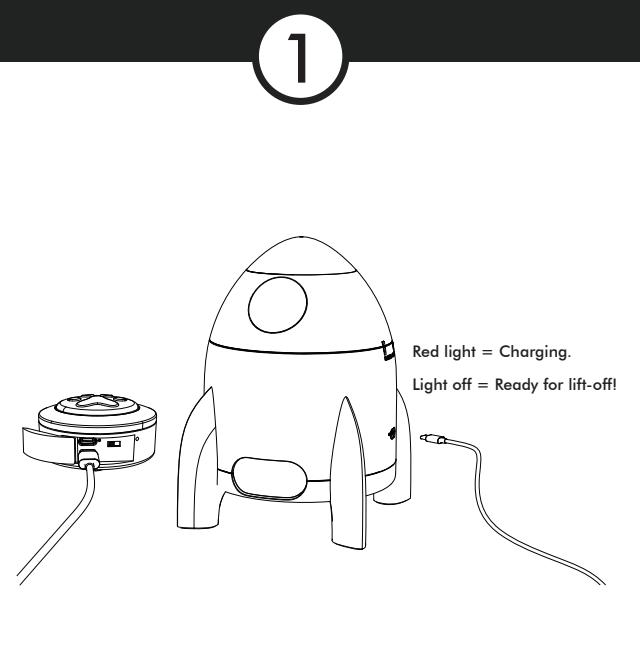

The remote control with suction cup can be securely attached to smooth surfaces such as refrigerators or glass doors, enticing your dog to press it with curiosity.

## Lawn Mode

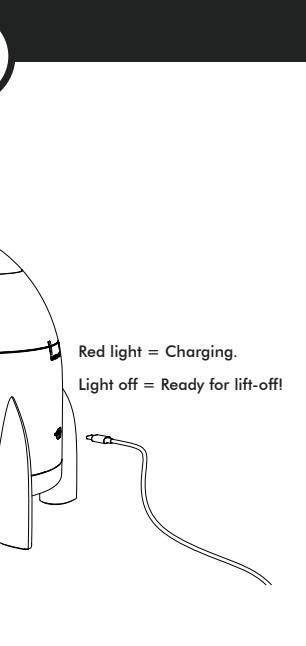

Place the remote control into the tray base for stable use outdoors on the lawn, so your dog can enjoy chasing treats under the sun.

## Getting Started – Charge &amp; Launch

## Let's fuel up your treat rocket!

Plug the included USB-A to USB-C cable into the port on the base

Note: Your dispenser can't operate while it's charging.  
Time to stock the treat bay!

- A. Turn the lid counter-clockwise to open.
- B. Unlock the treat container and gently

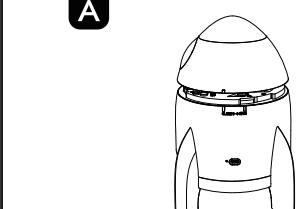

- remove it.
- C. Fill with your pup's favorite kibble (small, dry pieces work best!).
- D. Slide it back in and lock it up tight.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
