<p>Note</p> <ol style="list-style-type: none"> 1. Do not disassemble, press the Product with heavy thing, for Away from high temperature and humidity environment 2. Far away from WiFi and route etc, radiation equipment 3. Please keep within 10m distance Between device and earbuds 4. Recharging the product every month if it is not used long time 5. Restart the earbuds if some issue happened to avoid the operation caused the issue <p>(Please note that you must use the 5V1A charging cable to charge the Bluetooth headset charging box or use the charging cable delivered when you purchased the product)</p>									
									

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
