

**LiFePO4** | MODEL: 51.2V 105AH | ENERGY: 5376WH

**⚠ WARNING**

PLEASE READ THE TOP OF THE BATTERY CAREFULLY.  
 This battery is a high-voltage battery. It contains lithium-ion cells. It is not a toy. It is not for use in children's toys or other consumer products. It is not for use in medical equipment or other safety-critical applications. It is not for use in aircraft or other transportation vehicles. It is not for use in explosive or flammable environments. It is not for use in high-temperature environments. It is not for use in high-voltage or high-current applications. It is not for use in high-vibration environments. It is not for use in high-humidity environments. It is not for use in high-salt environments. It is not for use in high-pollution environments. It is not for use in high-radiation environments. It is not for use in high-magnetic-field environments. It is not for use in high-electromagnetic-interference environments. It is not for use in high-temperature, high-voltage, high-current, high-vibration, high-humidity, high-salt, high-pollution, high-radiation, high-magnetic-field, high-electromagnetic-interference environments.
