### 3. Specification

- Label Detail
- Equipment Name(Model): Remote Key Entry Flap Key
- Approval No:
- Company Responsible for Homologation: U-Chang Precision Co., Ltd.
- Manufacturing Date: 2012. .
- Manufacturer/Manufacturing Country: U-Chang Precision Co., Ltd. /Korea

Item	Specification
Equipment(Model)	Remote Key Entry Flap Key (M3BFUS04 / M3BFUS05)
인증번호 Approval No.	
송신주파수 Sending Frequency	314.9 MHz
수신주파수 Receiving Frequency	-
전파형식 Emission Type	A1D
Communication	One way communication
Channel	1
Falsification	ASK
Operating Environment	Temp. : -10 ~50 / Humidity : ~95%
Power	Battery Used(DC 3V)

### 4. A/S Information

### **FCC Information to User**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **Caution**

Modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**FCC Compliance Information :** This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation
