PCB Layout

A photograph of a green printed circuit board (PCB) with various electronic components. The board is rectangular with rounded corners and features a complex layout of copper traces. A large, square, dark-colored integrated circuit (IC) is mounted in the center. Numerous smaller components, including resistors, capacitors, and smaller ICs, are distributed across the board. A white ribbon cable is connected to a multi-pin connector on the right side. The board is labeled with the part number '3138 103 5304 00' and a date code '00071 010 941-0'. The background is a blue textured surface.
