

Model Difference declaration

Centre Testing International Group Co.,Ltd:

There are six models of ECG recorder products submitted by our company, including the main inspection model [EMobile-C] and the covering model [EMobile-B, EMobile-A, EM-1C, EM-1B, EM-1A]. The principle, structure and composition, intended use, key components, and electrical structure of the products are the same, and only the functional configuration is different. Therefore, the model with the most complete functions [EMobile-C] was selected as the main inspection model to cover the other models.

The specific differences are as follows:

Model	display screen	A single data record time	Store the maximum number of data strips	Enclosure Color	bluetooth	Heart Rate measurement
EM-1A	YES	5min	10	Gray	YES	YES
EM-1B	YES	10min	10	Gray	YES	YES
EM-1C	YES	15min	10	Gray	YES	YES
EMobile-A	YES	5min	10	White	YES	YES
EMobile-B	YES	10min	10	White	YES	YES
EMobile-C	YES	15min	10	White	YES	YES
