

What's in the box

- Device
- Power Cable

How to set up:

1. Connect the power cable to a USB-C power adapter
2. Press and hold the power button for several seconds
3. Follow the instructions on the in screen steps for setting up.

Regulatory Information

Regulatory information, certification, and compliance marks specific to Pixel Tablet can be found on your device under Settings > About > Regulatory labels and on the back of your tablet and bottom of your dock. Additional regulatory and environmental information can be found at g.co/pixeltablet/reg

Regulatory information, certification, and compliance marks specific to Pixel Tablet can be found on your device under Settings > About > Regulatory labels and on the back of your tablet and bottom of your dock. Additional regulatory and environmental information can be found at g.co/pixeltablet/reg

The Device is designed to operate in a dry, indoor environment. Your device works best in ambient temperatures between 32° and 95° F (0° and 35° C) and should be stored between ambient temperatures of -4° and 113° F (-20° and 45° C). Do not expose the device to temperatures above 113° F (45° C) as this may damage the [device], overheat the battery, or pose a risk of fire.

EMC COMPLIANCE STATEMENT

Important: This device, power adapter and other in-box accessories have demonstrated Electromagnetic Compatibility (EMC) compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions and other electronic devices.

RADIO FREQUENCY EXPOSURE

Radio frequency exposure information can be found at www.xxxx/regulatorsafety.com

[USE FOR UNITED STATES]

FCC REGULATORY COMPLIANCE

This device complies with Part 15 of the FCC Rules. Operation is subject to the following 2 conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

UWB devices may not be employed for the operation of toys. Operation onboard an aircraft, a ship or a satellite is prohibited.

[USE FOR CANADA]

ISED CANADA REGULATORY COMPLIANCE

This device complies with ISED license-exempt RSS standard(s). Operation is subject to the following 2 conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'ISED Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

1. L'appareil ne doit pas produire de brouillage.
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

The device for operation in the band 5150–5250 MHz is only for indoor use to reduce the potential for harmful interference to co-channel mobile satellite systems;

Les dispositifs fonctionnant dans la bande de 5 150 à 5 250 MHz sont réservés uniquement pour une utilisation à l'intérieur afin de réduire les risques de brouillage préjudiciable aux systèmes de satellites mobiles utilisant les mêmes canaux
