USB Adapter (Optional)

Mounting Bracket (Optional)

Introduction

1.Green Energy:

The wall light camera will keep working permanently with an integrated solar panel if it has gotten 2 hours sunshine each day.

2.Long Working Time:

The camera can work around 1.5 months without any sunshine if triggered 20 times per day (10 times in the day and 10 times in the night).

3.Freely Lighting:

Adjust floodlights freely to the desired comfortable level through APP for cozy illumination at night.

4.Light your way home:

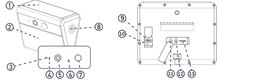
See clearly what's happening around your home with 600 lumens of floodlights, crisp HD live view, infrared night vision, and person detection.

5.Storage:

Support Local TF card (Max 256G) and cloud storage.

Product Overview

Appearance



① Solar Panel
② Floodlight
③ Photosensitive Sensor
④ LED Indicator
⑤ Camera Lens
⑥ Microphone
⑦ PIR
⑧ Speaker
⑨ Charging Port
⑩ Charging Indicator

FOV(H/V/D)	100°/52°/120°	Network Security	WPA-PSK /WPA2-PSK
Lens	3.5mm@F2.0	Battery Capacity	5200mAh
IR LED	8m	Item Weight	530g
Floodlights	10m	Product Dimensions	166(L)*79(W)*132(H) mm
Audio	Built-in Mic / Speaker	Charging Power	Sunshine or DC5V-1A
PIR	8m(120°)	Mounting Type	Wall Mount
Water Proof	IP65	Working Temp	-20~+50°C
Solar Panel	1.5W	Charging Temp	0°C~+45°C

Set Up Your Camera

Step 1 Download

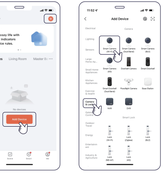
Download the Tuya Smart or Smart Life App from the Apple App Store or Google Play, or by scanning the QR code below.

Download on the APP Store

Get it on Google play

Step 2 Connect it to the App

1. Sign up an App account, go to the App homepage, tap Add Device, and select the smart camera(Wi-Fi).



Please follow the prompts of the App to allow relevant permissions, otherwise it will affect the addition and use of the device.

2. Press and hold the power button for 3s until the status LED is slow blinking red or heard "Waiting to receive the wireless configuration"

Reset the device

If the SSID of your home Wifi have been changed, you need to reconfigure the network. Please hold the reset button for 5-6 seconds until you heard "reset successfully!", then take the prompts to add the device again

Please choose a 2.4GHz Wi-Fi, the camera does not support the 5GHz Wi-Fi.
