| <p><b>EUT Housing and Board</b><br/><b>View 1</b></p> |  A photograph showing the internal components of the EUT housing. The white plastic housing is open, revealing a green printed circuit board (PCB) with three silver-colored circular components (likely capacitors or inductors) and various electronic components. The housing is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the top scale ranging from 0 to 80 mm and the bottom scale ranging from 0 to 100 mm.     |
| <p><b>EUT Housing and Board</b><br/><b>View 2</b></p> |  A photograph showing the EUT housing from a different perspective. The white plastic housing is closed, and the internal components are visible through a circular opening. The components include a copper-colored circular component and a black circular component. The housing is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the top scale ranging from 0 to 80 mm and the bottom scale ranging from 0 to 100 mm. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| <div>Solder<br/>Board-Component View<br/>1</div> |  A photograph of a green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1'. The component is irregularly shaped with three circular holes on the left side and a rectangular connector on the right. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). |
| <div>Solder<br/>Board-Component View<br/>2</div> |  A photograph of the same green PCB component, labeled 'Solder Board-Component View 2'. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).                                                                                                                                          |
