|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>1</div> |  A photograph of a small green printed circuit board (PCB) component, labeled 'Solder Board-Component View 1', placed on a black surface with a white millimeter ruler. The component is rectangular and features two black circular components, likely microphones or sensors, and a small gold-colored component. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 60 mm marks. |
| <div>Solder<br/>Board-Component View<br/>2</div> |  A photograph of a small green printed circuit board (PCB) component, labeled 'Solder Board-Component View 2', placed on a black surface with a white millimeter ruler. The component is rectangular and features a gold-colored component and a small black component. The ruler shows measurements in millimeters, with the component positioned between the 10 mm and 50 mm marks.                                            |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|--------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>3</div> |  A photograph of a green printed circuit board (PCB) populated with various electronic components, including a microcontroller, memory chips, and passive components. The board is placed on a black surface with a white millimeter ruler for scale. The ruler shows dimensions in millimeters, with markings every 10 mm and sub-markings every 1 mm. The board is oriented horizontally, and the ruler is placed vertically to its left and horizontally below it.                                                                      |
| <div>Solder<br/>Board-Component View<br/>4</div> |  A photograph of the same green PCB as in View 3, but from a different angle, showing the underside of the board. The board is populated with components on the reverse side, including a microcontroller and various passive components. The board is placed on a black surface with a white millimeter ruler for scale. The ruler shows dimensions in millimeters, with markings every 10 mm and sub-markings every 1 mm. The board is oriented horizontally, and the ruler is placed vertically to its left and horizontally below it. |

|                                                  |                                                                                                                                                                                                                                                                                                                                                                                                                            |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <div>Solder<br/>Board-Component View<br/>5</div> |  A photograph of a small green printed circuit board (PCB) component, labeled 'U00 20200729 H0210-14C_10011_10M-C', positioned on a black surface with a white millimeter ruler. The ruler shows measurements from 0 to 100 mm. The component is rectangular and has several gold-colored pins or solder points visible along its edges. |
| <div>Solder<br/>Board-Component View<br/>6</div> |  A photograph of a small, rectangular, yellowish-gold component, possibly a solder mask or a thin PCB, positioned on a black surface with a white millimeter ruler. The ruler shows measurements from 0 to 100 mm. The component has two small circular holes and a faint orange marking in the center.                                 |
