Subject: Class 2 Permissive Change (C2PC) Request

FCC ID: A5FEIA200MRF

To whom it may concern

In accordance with KDB 178919 D01 and FCC rule part §2.1043: Changes in Certified Equipment, Ei Electronics hereby requests a class 2 permissive change to FCC ID: A5FEIA200MRF as detailed below:

Updated PCB layout and antenna matching components.
Frequency change from 902.5MHz to 926.365MHz implemented by product firmware. This is hard coded in production by Ei Electronics and cannot be changed by the end user of the device.

A5FEIA200MRF was tested in host model EiA207W. This model is representative of all models in the series as the interface between the Alarm and RF module is identical.

As a result of the changes detailed above, the modified A5FEIA200MRF has been retested to Part 15.249 and Part 15.15.209.

Yours faithfully,

Eric Duignan
