blukii®
NoteBook Protector

Hands-free access control and access alarm system.
Offices · Meetings · Conferences · Trade Shows

System requirements:
• OS X 10.8 or newer
• *Bluetooth®* smart technology

Disposal of the product and the battery according to local regulations. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules and Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
Um eine umweltgerechte Entsorgung sicherzustellen, entsorgen Sie bitte elektronische Geräte über eine Elektronikschock-Rückgabestelle Ihrer Gemeinde. Batterien können Sie ebenfalls an kommunalen Sammelstellen oder als kostenlose Rückgabe an den Handel entsorgen.
Battery: 1 x CR2032

The integration of the new wireless/contactless interfaces *Bluetooth®* smart and NFC into new notebooks, tablets and smartphones is the base for the next App generation (App 2.0). New solutions become possible:

blukii NoteBook Protector

Hands-free access control, triggered by blukii

- Lock: Just go away
- Unlock: Just be there

Access alarm system, activated by blukii

- Alarm types: acoustic, optical and e-mail
- released by: keyboard, charging cable or lid

Virtual watchman, instructed by access alarm system

- Photos from surrounding send by e-mail

All you need for the blukii NoteBook Protector is

- a notebook or ultrabook (see system requirements),
- a blukii BTS module integrated into a blukii carrier product (inside this box),
- and the blukii NoteBook Protector App 2.0 (available on the blukii internet site).

The **blukii modules** – being just 22mm in diameter – are full of state-of-the-art technologies: *Bluetooth®* smart, NFC and a motion/temperature sensor. blukii modules communicate with notebooks, smartphones and tablets. The integration of the blukii modules into other products – in this case the pen – makes these technologies easily wearable.

We therefore completely rethought the pen and optimized it to suit the needs of the 21st century office. The pen became the blukii pocket pen – our standard **blukii carrier product** for office applications. It includes a note pad (for making notes anywhere and at any time), blukii BTS module and blukii NFC module. Enjoy this little new fantastic product.
