**Overview**

The INTCV01 is a cabinet containing up to four operational drawers containing RFID readers operating at 13.56 MHz. The RFID readers are used in conjunction with RFID tagged "SmartBaskets", which contain various products, tracked by the INTCV01. Each drawer, all electrically identical, may contain up to 120 RFID antennas corresponding with the well-defined storage areas.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
