

## **GSL Solutions Model # INTCV01**

### **Description and purpose of application**

The INTCV01 is an electronic RFID reader system utilizing the 13.56 MHz ISO15963 standard. The INTCV01 is used in conjunction with ISO15963 tagged “SmartBaskets” which will contain various products that will be physically placed and tracked within the INTCV01 into very well defined storage areas. The INTCV01 contains up to four operational drawers, each on which is electrically the same. Each drawer contains up to 120 RFID antennas corresponding with the well-defined storage areas.

The purpose of the application is to obtain FCC approval of original certification for GSL Solutions model #INTCV01 ( FCC ID: A6KICABR01 ) under FCC rule part 15.225.
