

RPG12

GoPlay SideKick
gamepad
for iOS

User Manual

 Bluetooth™ macOS iOS

1 Turn on the Controller

Pressing and holding the menu button for 0.6 seconds to power on the controller from an off state.

2 Ready to Pair

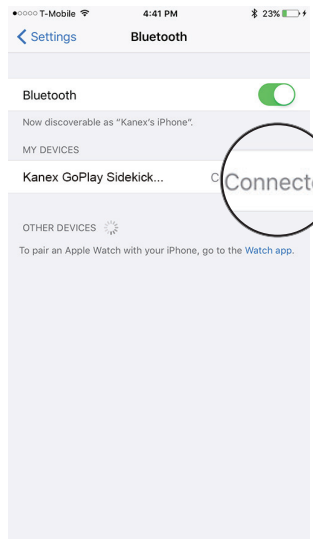

Pressing and holding the button for 2 seconds to place the controller into a pairable mode.
All four LEDs will continuously flash ON and OFF evenly indicating that it's ready to be paired.

3 Bluetooth Pairing

iOS Devices:

4 Ready to Play

One of the four LEDs will light up solid, depending on the player number (1-4) assigned. This indicates that pairing was successful.

5 Clear pairings & Reset

Pressing and holding both the menu button and Bluetooth button simultaneously for 5 seconds to clear all saved Bluetooth pairings. This may also reset the controller.

6 Battery Charging

Battery low: when powering on with low battery or battery level drops below 10%, LED1 will flash for 10 seconds.

Charging: Use the lightning cable connect the controller to the power sources to charge inner battery.

Each LED will light up solid as the controller charges.

FCC Certification Requirements

Caution: Any changes or modifications in construction of this device which are not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the Receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
