Re: 'No FCC ID on Module Label' Request Letter

The module [FCC ID: A8TBM71S2] (9.0 x 11.5mm) is too small to put the FCC ID on the module. We would like to apply for your permission to add the FCC ID on the Datasheet and additionally on the shipping package instead of the module.

The OEM installation manual will provide detailed instructions for the Host manufacturer how to label the final Host Device correctly. Here is the sample label which will be shown in the OEM installation manual:

Contains Transmitter Module FCC ID:
A8TBM71S2

or

Contains FCC ID: A8TBM71S2

This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) this device may not cause harmful interference,
and (2) this device must accept any interference
received, including interference that may cause
undesired operation

A handwritten signature in black ink that reads 'Sanjay Malani'.
