Description of the 15-2138 RF Remote Finder Transmitter

The 15-2138 Finder Transmitter is a one button remote that will be packaged with the Radio Shack 8-in-1 Kameleon 2003 remote URC6123BJ0/1. The RF transmitter remote will transmit an encoded signal with a specific address to the RS 8-in-1 Kameleon 2003 to activate the remote finder. The unit will continuously transmit the RF signal while the key is held down. The unit will transmit the RF signal for 4.5 seconds after the key is released.
