Purpose of change letter

The modification of 170MHz Wireless Microphone System certified equipment (3201257, FCC ID: AAO3201257AR) falls in the categories of changes allowed by class II of permissive change being applied for. All changes do not intend for maximum power and change on field strength ratings and operating frequencies.

The only change(s) is (are) listed as below:

The RF portion, which is previously fabricated as separate module, is now integrated into the main PCB board.

PCB layout is changed for better performance.

There is no function change to the product and other mechanical designs are identical to the original product.

Sincerely,

A handwritten signature in black ink, appearing to read 'S.W. L.' with a stylized flourish at the end.
