UNITED STATES

CONTENTION-BASED PROTOCOL EXHIBIT

FCC ID: ABZ89FT7633

Date: 2009.11.05

To whom it may concern:

We, the undersigned, hereby authorize "A restricted contention-based protocol" is used for this product

The FCC mentions the WiMAX technology as an example of restricted contention protocol:

"34. Under the Commission's rules, contention-based protocols can be broadly categorized as either "unrestricted" or "restricted. Restricted contention protocols can prevent interference only with other devices incorporating the same protocol. WiMAX, with its scheduling protocol, currently stands as the main example of a restricted contention technology. Different WiMAX systems can be coordinated to avoid interfering with each other, thus providing each WiMAX device a "reasonable opportunity to operate."

If you have any questions regarding the authorization, please don't hesitate to contact us. Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'SPAYNE', with a long horizontal line extending to the right.
