Subject: Application for Certification of UHF Transmitter with FCC ID: ABZ99FT4083

Dear Sir or Madam:

Motorola Inc., 1313 East Algonquin Road, Schaumburg, Illinois, herein submits application for Certification of the equipment identified by FCC ID number ABZ99FT4083.

This transmitter is primarily intended for use in a mobile radio application with capabilities for conventional and 2 to 1 TDMA digital communications with a conducted transmit power which is adjustable from 1 Watt to 48 Watts (30 Watts above 512 MHz).

There are two models using the same transmitter – one with a GPS receiver and one without a GPS receiver. The transmitter is exactly the same between the two types. On the non-GPS model, the GPS receiver circuitry is removed.

The subject transmitter complies with CFR Title 47, Section 90.203, in that the operator cannot directly program the transmit frequencies using only the normally accessible external controls of the unit.

Enclosed is a complete Certification Application. Please contact me if you require any additional information.

Sincerely,

/s/ Larry D. Larsen (signed)
