Dear Diane Poole,

This is in response to your request for schematic diagram. It is my understanding the subject device is classified as TV Interface Device and as part of its exhibits, it need only provide block diagram and not detailed schematic diagram.

In addition to the overall end-product block diagram, we filed a Description of RF Converter, which provided detailed text description and a detailed block diagram of the RF converter circuitry. We believe this provided information is sufficient information to enable the issuance of a grant.

After your reconsideration, please advise if you still require our submittal of a schematic diagram. Thank you for your attention in this matter.

Sincerely yours,

*Richard Mullen*
