To: Federal Communications Commission

FCC ID: ACJ932CR-BT4509

Dear Sir,

This is to confirm and explain the modification of our product submitted to apply for FCC Class II Permissive Change.

Due to the reason of our limited module transmitter is to be installed within a Panasonic controlled end-product car radio other than the one which was approved in the original application. After we re-investigated the all requirements of FCC rules, we found the result was still complying with the limitation.

Please kindly accept this Class II permissive Change. If you have any further questions about this modification, please contact us. Thank you in advance.

Sincerely,

Richard Mullen
