YEP0FX1510 PWB photos

3 buttons	With antenna	Without antenna
Back	 A photograph of the back of the green printed wiring board (PWB) for the YEP0FX1510. It features a silver antenna shield at the top, a central microcontroller chip labeled 'K100 M3B', and various other components and traces. The text 'PbF' is visible on the board.	 A photograph of the back of the green PWB, similar to the one with the antenna, but without the silver antenna shield. It shows the same central microcontroller chip and other components.
Front	 A photograph of the front of the green PWB. It shows a complex arrangement of components including a microcontroller, various capacitors, and connectors. The text 'YEP01A034a' is printed at the top of the board.
