

The image shows the internal components of a white plastic device housing. A green printed circuit board (PCB) is mounted inside, featuring various electronic components including integrated circuits, capacitors, resistors, and a small display or keypad area. A red 'X' is marked on the PCB. The device is labeled 'PNLE17542A-LV' and '2010.01.05'. The PCB also has a 'REF-1' label with an arrow pointing to a specific component. The device is shown from the inside, with the white plastic housing visible around the edges.

Main Board
