

Difference between KX-WT125 and WT126

The difference between KX-WT126 and KX-WT125 is with or without vibrator.

KX-WT126 have the vibrator motor and the circuit to control of it, and KX-WT125 doesn't have them.

These two product use the same P.C.B. and then the components which are enclosed with broken line in following circuit diagram are not mounted on KX-WT125.
