AVS-03-F002-2

To: Stan Lyles / FCC Equipment Authorization Branch
Applicant: Matsushita Electric Industrial Co., Ltd.
FCC ID: ACJ9TAWX-CC2010
731 Confirmation Number: EA940481
Date of E-Mail: November 20, 2003
Correspondence Ref. No.: 26010
Type Application: FCC Part 90 Licensed Non-Broadcast Station Transmitter (TNB)
Product Name: Panasonic Center Module, Model WX-CC2010

This is in response to your comment that the user manual should be amended to add "20 cm spacing" marking to satisfy the RF exposure warning requirements. This product's range of RF output power specification is 10~30 mW; however, due to the employed antenna loss of -3dBi the maximum measured RF output was 4.6 mW (ERP).

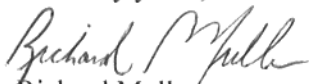

The following marking will be added to the Operating Instructions:

FCC RF Exposure Warning:

This Wireless Communication System complies with FCC radiation exposure limits set forth for an uncontrolled environment; and must be installed and operated in accordance with provided instructions. The Center Module must be installed to maintain a minimum of 20 cm spacing between antenna and all person's body (excluding extremities of hands, wrist and feet). The Order Taker must be used only with provided belt clip.

Should you have any questions, please contact the undersigned. Thank you for your attention in this matter.

Sincerely yours,

Richard Mullen
