- Theory of Operation

Above mentioned document contains detailed system and equipment description, which are considered as proprietary information in operation of this equipment. The public disclosure of above documents might be harmful to our company and would give competitor an unfair advantage in the market.

It is our understanding that all measurement test reports, FCC ID label format and correspondent during certification review process cannot be granted as confidential documents and those information will be available for public review once the grant of equipment authorization is issued.

Thank you for your attention to this matter.

Sincerely,

Richard Mullen
