Subject: Authority to Act as FCC Agent and Request for Confidentiality / Panasonic Mobile Personal Computer Model CF-29 Family With Intel WLAN (a+b+g) TCB Certification for FCC ID: ACJ9TGCF-291A

To Whom It May Concern:

On behalf of Applicant Matsushita Electric Industrial Co., Ltd. and their agent Matsushita Electronic Corporation of America, we hereby authorize PCTEST Engineering Laboratory, Inc., to act on our behalf in matters relating to FCC equipment authorization, including the signing of documents relating to these matters. Any and all acts carried out by PCTEST on our behalf shall have the same effect as acts of our own.

This project represents Panasonic Mobile Personal Computer Model CF-29-mk3 Family to be marketed under FCC ID: ACJ9TGCF-291A. This product will be marketed with: (1) CPU type Pentium-M-1.4 GHz; and (2) Intel WLAN (a+b+g) Model WM3B2200BG with Part 15C operation within 2412~2462 MHz at 56mW conducted RF output power.

This product's LCD panel will house 2 pattern WLAN antennas with left antenna TX/RX Inverter F Type with 1.86 dBi antenna gain and the right antenna RX only Inverter F Type with 2.86 dBi antenna gain.

This PC contains one unique pass-thru antenna connector on the bottom enclosure, which may connect to optional Car Mounter Model CF-WEB273. The Car Mounter has 1 matching unique antenna passive pass-thru connector, which is hard-wired connected to its rear panel's 1 external TNC antenna connector. This Car Mounter is marketed to only non-general consumers, such as police, fire and military, and must be professionally installed following the provided instructions. The instructions recommend usage of Radiall/Larsen WLAN antenna type MS3E2400TNC, which is provided with connecting cable. Refer to provided samples of User Manuals for exact wording. The basic portable PC's User Manual contains all general RF exposure warning notices, which include notice that PC was approved for portable operation, and unless otherwise advised in separate supplemental instructions for individual wireless transmitter(s), requires minimum 1.5 cm spacing. The mobile PC's User Manual contains all general RF exposure warning notices, which include notice that PC was approved for mobile operation and requires minimum 20 cm spacing.

In accordance with provisions of Section 0.457(d) of the Commission's Rules and Section 552(b)(4) of the Freedom of Information Act, we request confidentiality for transceivers' exhibits for Operation Description, Parts List, Block Diagram(s) and Schematic Diagram(s). The WLAN is not user adjustable and does not have any Tune-Up Procedure. These exhibits contain proprietary, confidential and trade secrets material, which would not be routinely made available for public inspection.

Sincerely yours,

Richard Mullen
Group Manager
