This is in response to your request for additional information.

1. Please provide the following missing documentation:

- a. The FCC ID and Section 15.19 Statement labels, as well as their location on the EUT.
- b. External and Internal photos of the EUT, including photo(s) that show that the distance between the various antennae and the bottom of the EUT is at least 20 cm.
- c. The User's Manual, including the information required for compliance with RFx, Sections 15.21, 15.105 and 15.407(e).
- d. The confidentiality/STC requests for these applications.

Answer: Attached find above requested items and the FCC cover letter will be submitted after we receive PCTEST Test Reports.

2. Please submit the Block Diagram for the licensed transmitter, listing all clocks/oscillators, as required.

Answer: Attached find updated Alps BT Block Diagram with reference to employed 26 MHz clock crystal.

3. Please submit the newly required statement from the applicant with respect to ad hoc mode for Part 15E DFS compliance.

Answer: Within the pending FCC cover letter we will declare the following wording regarding Part 15E DFS compliance:

"This device complies with Dynamic Frequency Selection requirements in R&O FCC 03-287 as a client only device without radar detection capability and client software and associated drivers will not initiate any transmission on DFS frequencies, which includes transmissions for beacon ad-hoc peer-to-peer modes. The User Manual will provide the following type wording, pursuant to §15.407(e): This PC operation within 5.15~5.25 GHz band is restricted to indoor use only to reduce any potential harmful interference to co-channel Mobile Satellite Systems."

We trust this answers your question. Please advise if you have any other questions or comments.

Sincerely yours,

Ben Botros
