Dear Mr. Stanley Lyles:

We noted your sent FYI regarding on/off SAR testing generally applicable only for P<5mW Bluetooth - depending on device design and operating configurations, future filings may request other info/data for co-transmitting modes.

Comment 1: You have requested short-term confidentiality. However, there is no letter exhibit requesting short-term confidentiality. Please submit a signed letter requesting short-term confidentiality. Letter should include a list of exhibits to be marked short-term confidential. Letter should include a brief explanation as to why short-term confidentiality is requested.

Answer 1: In accordance with FCC Public DA 04-1705, we request short-term confidentiality for BT and WLAN exhibits for External Photographs, Internal Photographs and Antenna Position Photographs. These exhibits contain pre-market information, which could give our competitors unfair advantage should this information be released before this product is actually introduced into the common marketplace.

Thank you for your attention in this matter.

Sincerely yours,

*Richard Mullen*
