Subject: Authority to Act as FCC Agent and Request for Confidentiality
Panasonic Portable Personal Computer CF-T4 With Intel WLAN (802.11a+b+g)
FCC Certification for FCC ID: ACJ9TGCF-T41

To Whom It May Concern:

On behalf of Panasonic Corporation of North America, we hereby authorize PCTEST Engineering Laboratory, Inc., to act on our behalf in matters relating to FCC equipment authorization, including the signing of documents relating to these matters. Any and all acts carried out by PCTEST on our behalf shall have the same effect as acts of our own.

This project represents Portable Personal Computer Model CF-T4mk1 Family, which will be marketed under FCC ID: ACJ9TGCF-T41. This product will be marketed with: (1) AC Adaptor Model CF-AA1623A; (2) CPU type Pentium-M-1.2GHz; and (3) Intel WLAN(a+b+g), Model WM3B2915ABG. The WLAN has Part 15C DTS operation within 2412~2462 and 5745~5825 MHz with 233 mW and 103 mW RF output; and Part 15E NII operation within 5180~5240 and 5260~5320 MHz with 55 mW and 125 mW RF output. The maximum measured SAR was 0.365 W/kg 802.11b Body SAR; 0.197 W/kg 802.11g Body SAR; 0.480 W/kg 802.11a (5.3 GHz) Body SAR; and 0.390 W/kg 802.11a (5.8 GHz) Body SAR at 1.5 cm or less spacing.

The internal permanent attached WLAN antennas are Main TX/RX Inverter F Type with 3.69 dBi and Aux TX/RX Inverter F Type with 1.09 dBi antenna gain. At this time, this product is not provided with optional Port Replicator or Car Mounter or co-located transmitters. The PC's main User Manual gives all FCC required notices and warning, including general RF Exposure Warning. The provided Supplemental User Manual for WLAN gives following type additional notice for NII operation:

“This product is restricted to indoor use due to its operation in the 5.15 to 5.25 GHz frequency range. FCC requires this product to be used indoors for the frequency range 5.15 to 5.25 GHz to reduce the potential for harmful interference to co-channel Mobile Satellite Systems. High power radars are allocated as primary uses of the 5.25 to 5.35 GHz and 5.65 to 5.85 GHz bands. These radar stations can cause interference with and/or damage this product.”

In accordance with provisions of Section 0.457(d) of the Commission's Rules and Section 552(b)(4) of the Freedom of Information Act, we request confidentiality for WLAN transceivers' exhibits for Schematics, Block Diagram and Theory of Operation. This product is not user adjustable and is not provided with Parts List or Tune-Up Procedure. These exhibits contain proprietary, confidential and trade secrets material, which would not be routinely made available for public inspection.

Sincerely yours,

Richard Mullen
