Re: Request for Full Modular Approval for Mobile Application / FCC Part 15C, Section 15.247
Digital Transceiver, Model SH-FX60T / FCC ID: ACJSEFX60

To Whom It May Concern:

This Full Modular Approval Declaration for the subject product in accordance with FCC Public Notice DA 00-1407 and is intended for Mobile Application with minimum 20 cm spacing between antenna and user's body.

1. RF shielding

The module has its own RF shielding. There is a metal shield "can" which covers the RF circuitry on the PCB. Please refer to the internal photos for details.

2. Buffered modulation / data inputs

The data inputs are buffered.

3. Power supply regulation

The module has its own power supply regulation. A 3.3V regulator is designed into the circuit to accept up to 5VDC.

4. Antenna requirements

The antenna is incorporated onto the PCB. Please refer to the Declaration of Antenna Used for details.

5. Tested in stand-alone configuration

The module was tested in a stand-alone configuration. Please refer to the Test Report for details.

6. FCC ID label

Module itself will be marked with its own FCC ID as declared above. When the module is installed inside another device or in a casing, the exterior label will make reference to the enclosed module and its FCC ID. Please refer to the FCC Label Sample for details. For the Digital Receiver, the FCC ID will be in the form of a label stuck directly onto the PCB.

7. Operating requirements applicable to the transmitter

There are no specific rules or requirements that apply to the module.

8. RF exposure requirements

The module complies with the FCC RF Exposure requirements for mobile application. Please refer to the Test Report for details.
