**Subject:** Sanyo Electronic Co., Ltd., FCC ID: AEZNVM-4070, Assessment NO.: AN07T6856, Notice#1

Question #1: The fundamental field strength was tested at L: 88.2MHz, H: 107.6MHz, not 88.1-107.9MHz as listed on the Form 731. Please explain.

**Ans: Please see the page 21 ~ 23 of the revised test report.**

Question #2: The test report does not show test setup information as how the 20% bandwidth was tested. What kind of audio signal was provided during the test? How's the volume adjusted to? Please provide more specific information to show that FCC test requirements for FM transmitters are met.

**Ans: Please see the page 7 of the test report.**

Question #3: The answer to 7 questions gives a very short answer to the last two questions. It is not enough. For frequency range, please include a statement in the test report to show that the test lab has already manually verified the frequency range, from xxx to xxx. For 20% bandwidth test, please provide detail information as what kind of audio signal was provided, and whether the volume was adjusted to the maximum level. Please update the test report, and the answer to FCC questions.

**Ans: The tuning controls were manually adjusted to verify maximum tuning range.**

**Please see the page 4 of the test report.**

Question #4: The filing includes an permit-but-ask inquiry sent from the test lab, but does not include FCC reply. This does not mean that permit-but-ask procedure is done. Please submit a copy of the correspondences between the lab and FCC to include FCC's reply. Before FCC gives positive feedback, the grant can not be issued.

**Ans: Please see the attachment.**

Best Regards,  
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
