After a review of the submitted information, I have a few comments on the above referenced Application.

General/EMC

- 1) It is uncertain if the optional scrambler is analog or digital in nature. Please explain so we can verify the F3E emissions designator is applicable. Note that use of digital scrambler techniques requires an emissions designator F1E (90.212a/b) and may require additional line entries to the 731 form.
