

B-8426A

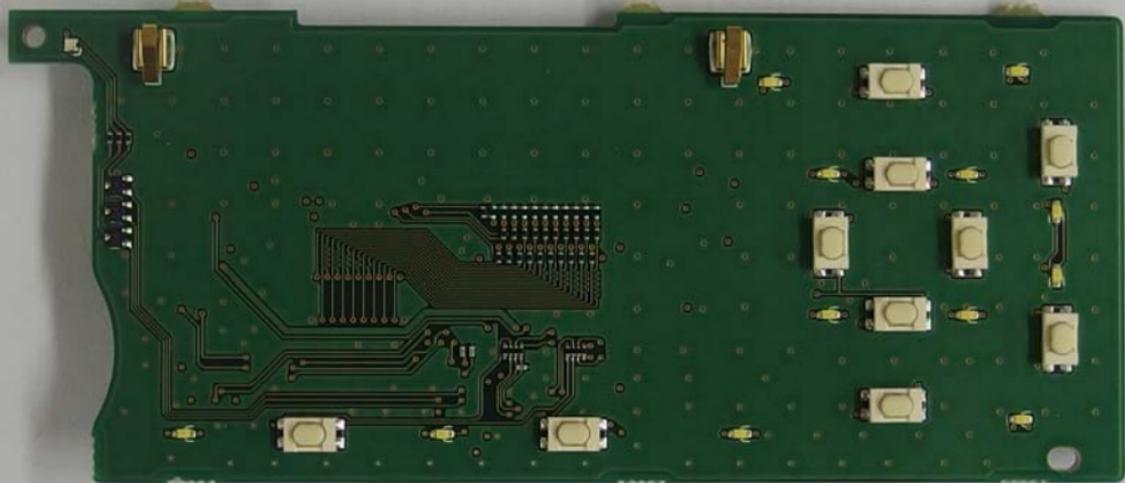

A green printed circuit board (PCB) is shown against a light grey background. The board is rectangular with rounded corners. On the left side, the text "B-8426A" is printed in white. The board features a white multi-pin connector on the right side, with a small green tab extending from its bottom. Several small, circular components, likely capacitors or resistors, are visible on the board's surface. The board is oriented vertically.
