

B-8426A

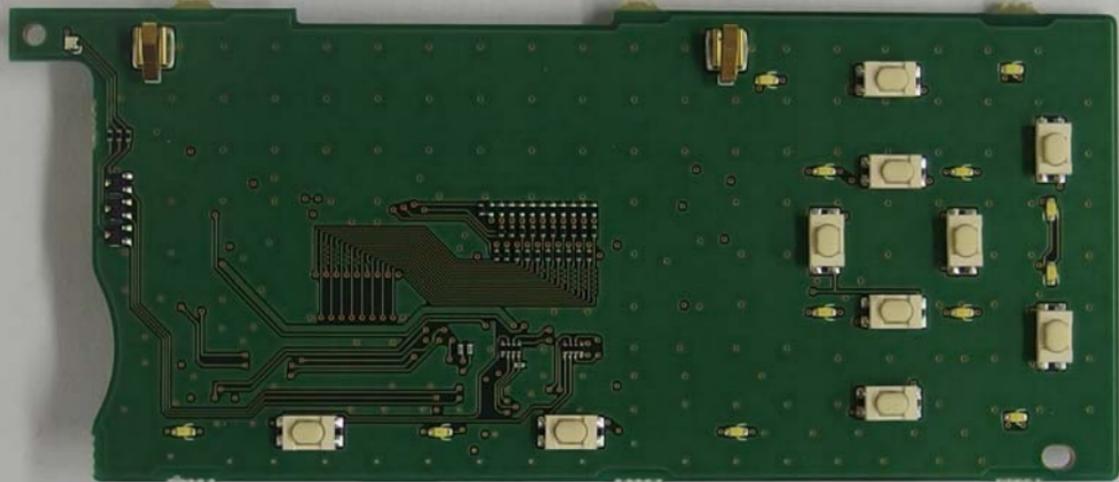

A green printed circuit board (PCB) is shown against a light grey background. The board is rectangular with rounded corners. On the left side, there is a white connector with a row of pins. To the right of the connector, there are two circular components, one at the top and one at the bottom, each with a small red dot in the center. The board is populated with several small, dark components, likely resistors, arranged in a grid. The text "B-8426A" is printed in white on the left side of the board.
