

# 1 Safety Precautions

For your safety, be sure to read the following safety information.

- These precautions are intended to prevent property damage and to insure the safety of the user and others in the area. Please obey these precautions in order to use this product safely and properly.
- Gain full understanding of the precautions listed under **WARNING** and **CAUTION** before reading the rest of this manual.
- This manual includes precautions that apply not only to this product but also to the computer systems with which this product is used.
- Keep this manual in a secure place so that these precautions can be reviewed at any time.

## WARNING

Accidents that result from ignoring the precautions noted below may result in death or serious injury for the user or others in the area.

- Do not immerse this product in water or allow it to get wet.
- Do not touch this product with wet hands while it is in use.
- Do not insert wire or other metal objects into this product.
- Do not attempt to disassemble this product or modify it in any way. Furthermore, do not attempt to service this product on your own.
- Discontinue use immediately if this product releases smoke, a strange odor, or abnormal noise.

## CAUTION

Accidents that result from ignoring the precautions noted below may result in personal injury or property damage.

- Be careful not to insert this product into the computer upside down.
- Do not remove or insert this product while Windows 95 is loading.
- Do not remove this product while the computer is still in use. (See caution statement on page 21.)
- Do not step, sit, or place heavy objects on this product.
- Do not drop, twist, or apply strong impact to this product.
- Avoid humid or dusty locations and locations with bad ventilation.
- Avoid direct sunlight and locations that are close to the outlets of heaters or coolers.
- Avoid locations with sudden temperature changes.
- Do not use near televisions or radios.
- Do not place this product on an unstable or sloping surface.
- Avoid locations with strong magnetic fields, static electricity, humidity levels higher than recommended for the computer, or dew formation.
- Do not use paint thinner or benzene to clean this product.

# Safety Precautions 1

## General Precautions

- Be sure to create a backup for the LAN Card Utilities disk and use this for normal operation.
- Refer the operating instructions accompanying the computer and other peripherals used in conjunction with the UX-136 regarding the proper operation of those items.
- When installing software or otherwise making changes to the environment of your computer, be sure to create a backup for all critical data stored in your computer. Doing so will hold the resulting damage to a minimum if something goes wrong.
- ICOM will not be held responsible for lost or damaged data under any circumstances.

Icom UX-136  
 Tested to Comply  
With FCC Standards  
FOR HOME OR OFFICE USE

**NOTE:** This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

**Warning:** Changes or modifications not expressly approved by Icom could void the user's authority to operate the equipment.
