

# Manual

## Model YKQ03(TX)

### 1) Profile:

- 1.1、 Input: 4.5V(3\*AAA battery)
- 1.2、 Receiver is a UL listed product with grounded outlet
- 1.3、 PIR Transmitter will send out a signal after detecting a signal

### 2) Description :

- 2.1、 Plug in the RF receiver to outlet. And then connect the controlled device to the outlet of the receiver.
- 2.2、 Install the PIR Transmitter upon the wall. After installing 3XAAA batteries, the Transmitter flashes 40 seconds. The transmitter detects the human body movement and send out a signal to Receiver. The receiver will turn on for 10 minutes after receiving the signal (caution: there is no turn off signal. The receivers turn off automatically after 10 minutes).

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Industry Canada Notice:** This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesirable operation. This Class B digital apparatus complies with Canadian ICES-003. Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement. Cet appareil numérique de la classe B est conforme la norme NMB-003 du Canada
