Carmel, IN 46032

Federal Communications Commission
Authorization and Evaluation Division

Confidentiality Request regarding application for certification of FCC ID: AIERIT17-145

Pursuant to Sections 0.457 and 0.459 of the Commission's Rules, we hereby request confidential treatment of information accompanying this application as outlined below:

| Exhibit Type | File Name |
|-------------------------|----------------------|
| Block Diagram | DTX-145 BlkDia.pdf |
| Schematics | DTX-145 Schem.pdf |
| Operational Description | DTX-145 OpDes.pdf |
| Semiconductor List | DTX-145 PartsLst.pdf |
| Tune-up Procedure | DTX-145 TunPro.pdf |
| Users Manual | DTX-145 UserMan.pdf |

The above materials contain trade secrets and proprietary information not customarily released to the public. The public disclosure of these materials may be harmful to the applicant and provide unjustified benefits to its competitors.

The applicant is aware that the Commission does not ordinarily grant confidentiality to a Users Manual. The manual is very technical and is not provided to the consumer because the consumer cannot service the device. Also, this product is marketed and sold to systems integrators who need highly technical and proprietary information to install, maintain, operate, and service the product. The Users Manual contains such information including a detailed theory of operation, alignment procedures, and circuit descriptions. Therefore, the applicant feels justified in requesting confidentiality of the Users Manual.

The applicant understands that pursuant to Section 0.457 of the Rules, disclosure of this application and all accompanying documentation will not be made before the date of the Grant for this application.

Sincerely,

Sam L. Dulaney
Chief Engineer
Ritron, Inc.
