Re: Extended Frequency Justification on FCC ID: AIERIT17-145M

To whom it may concern:

The Part 95J MURS radio AIERIT17-145M has no provisions for programming on any except the 5 MURS frequencies. Frequencies are programmed from the factory on the 5 MURS frequencies. No other frequency programming is possible.

Sincerely,

A handwritten signature in black ink that reads "Sam L. Dulaney".
