Subject: Limited Module Approval

Date: August 16, 2013

FCC ID: AK8VGPWRC9

Dear Reviewer,

We, Sony Corporation would request 2.4G RF Receiver approved under limited module approval authorization. The application of this module is specified to both portable and mobile host equipment. The requirements regulated in 15.212 have been fulfilled and clearly explained below.

1. **The requirement of RF shielding:** The module does not contain a separate shield. However, this module will not be offered for sale to, or use by other company or OEM. As the manufacturer of the module and any host products into which this module will be installed, power Monitors retains full control over the final installation of the device into its products, and therefore can assure the compliance of the end product to the tested results.
2. **The requirement of buffered inputs:** Buffered data inputs stage has been integrated in chip (CYRF8935).
3. **The requirement of power supply regulation:** The part number of the power regulator is (CYRF8935).
4. **The requirements of section 15.203 and 15.204(C):** The requirements of antenna connector and spurious emission have been fulfilled. Please reference the exhibition Test Report.
5. **The requirement of stand-alone test configuration:** Please reference exhibition Test Configuration Photo for the stand-alone test configuration.
6. **The requirement of labeling:** The instruction on the labeling rule of the end product has been stated in the user's manual of this module. Please also see the exhibition Label Sample.
7. **The requirement of compliance on specific rule or operating requirements:** The required FCC rule has been fulfilled and all the instructions for maintaining compliance have been clearly stated in the Users Manual.
8. **The requirement of RF exposure:** The module only radiates very low power levels; it complies with RF exposure requirement.

Please do not hesitate to contact me for any questions of this request letter. Thank you.
